#2596, 11th Main,"E" Block,II Stage,Rajaji Nagar ,
Bangalore-560 010.Ph:080-231321031963

Today more and more parents are realizing that the key to a healthy child is a strong immune system. All children are constantly exposed to disease producing organisms such as bacteria, viruses, fungi and parasites but this doesn't mean they will get sick. A strong immune system provides a child with the natural defenses to fight off disease.

If a child has a weakened immune system they are more susceptible to colds, flu and other problems. Germs are everywhere and being exposed to them is a natural part of life. It is not natural, however, to try and 'germ proof' your child. In fact exposure to different viruses and bacteria can actually strengthen your child's immune system. Some childhood diseases such as mumps, measles, chickenpox and rubella can help to build immunity and protect against these diseases.

Improve your Child's immunity with acupressure! Specially designed package for young mothers

Join our campaign to avoid antibiotics for children. Those who have children below 10 years can join our Academy as annual members and implement all these simple healing methods to avoid antibiotics.

Regular activation of reflex points on the palm and foot of the child improves the immune system which has been tried by many people who have given us positive feed back.

Acupressure points to overcome cold, allergy, digestive problem and eye problem will be taught to those mothers who join as annual members. Mothers will be motivated to follow this preventive therapy for one year and record their observations for our research records.

The training programme will be conducted by **Dr.H.Bhojraj** in the above address or in the schools or apartments depending on the registrations in the area.

Mothers who are interested in joining our academy for the systematic research may fill up the application form and send to the above address along with a membership fee of Rs

1000/(Rs One thousand only) by cash or cheque in favour of Dr.H.Bhojraj a/c "Academy for acupressure and acupuncture" .

Research Team
