The Theoretical aspects of the Acupuncture treatment were covered in detail by Dr.Bhojraj in simplest fashion for easy understanding. I was able to get in-depth understanding of Acupuncture Techniques which enabled me to start practising from the third day of the Course with good outcome.

First and foremost, I am applying the technique to improve my own health condition and I am also confident of treating my family members also for ailments.

The course has given me a great opportunity to learn this technique devised by Dr. H. Bhojraj. I sincerely thank Dr.Bhojraj for this great motivation and imparting the knowledge of the new Technique without any reservation.

I decided to learn the theory of Dr. Bhojraj's Acupuncture Technique when my kidney stones were dissolved within a month of acupuncture treatment from him.

The theory classes were very interesting and Dr. Bhojraj explained theory in very simple language and clarified all our doubts with practical demonstrations. He also taught us very easy to remember methods, especially all the 60 points. After undergoing this Course, I am very much convinced about the advance method invented by Dr. Bhojraj to solve many problems in the body and mind. With the forthcoming practical training sessions, I am confident of incorporating advance acupuncture in my healing Sessions along with other techniques
